

Invitation to Contribute to the 2027 IMCP Workshop

IMCP Headquarters, Beijing, March 1-5, 2027

Dear Colleague,

As co-chairs of the upcoming **2027 International Meridian Circle Program (IMCP) Workshop**, themed "Monitoring Geospace Disturbances from the Ground: Scientific Challenges, Observational Networks, and International Collaboration", we are very pleased and honored to invite you to participate in person and submit an abstract to the Workshop.

The workshop will be held from **1 to 5 March 2027** at the IMCP Headquarters in Huairou District, Beijing, China. Further information is available on the Workshop website: <https://workshop2027.imcp.ac.cn/>.

The scientific program will cover the full spectrum of phenomena that intricately shape the variability of our space environment, including solar and geomagnetic activity, geospace disturbances, atmospheric weather and climate, geomagnetic field variations, and solid-Earth hazards. Hence we anticipate the following sessions:

- I. National and international contributions to the IMCP.**
- II. New and outstanding science issues for IMCP;**
- III. Instruments and networks for the IMCP;**
- IV. Modelling projects and tools, data systems and AI;**
- V. New results from space observations, scientific synergies/coordinated observations between space platforms and ground-based assets;**
- VI. Tools and programs for international cooperation within the IMCP and beyond.**

Abstracts addressing any of the above session themes are kindly requested by the deadline of **December 10, 2026**. Please submit your abstracts by visiting the IMCP workshop registration page at : <https://workshop2027.imcp.ac.cn/abstract-submission/>

We very much look forward to welcoming you to Beijing next March.

Yours sincerely,

Prof. Chi Wang, NSSC, CAS, China

Prof. Michel Blanc, IRAP/SDU, France/China

IMCP 2027 Workshop Co-Chairs
